

## SCREW SUPPORT MOUNTS, Series DLM/DLMS

**Dynemech DLM/DLMS Series Mounts**, developed in steel and stainless steel respectively are simple and effective vibration dampers for machines with respective holes in the base. these mounts offer low frequency attenuation, stable machine levelling and vibration reduction. The flexible levelling screw accomodates uneven/sloped surfaces upto 5 degree. DLMS series find application where corrosion resistant materials for hygienic, climatic and environmental reasons are required like in pharmaceutical, food and beverages processing and packaging units, medical equipment manufacturing and chemical processing industries.
